RESEARCH INTERESTS

Multi-Agent Reinforcement Learning for safety-critical autonomous systems, with applications to Advanced Air Mobility (AAM) and Urban Air Traffic Management. Current research focuses on robust decision-making under uncertainty, GNSS spoofing resilience, and eVTOL pre-flight energy estimation and energy efficient tactical deconfliction. NASA-funded research on airspace conflict resolution in high-density environments towards efficient AAM operations.

EDUCATION

Ph.D. in Mechanical and Aerospace Engineering — August 2024 – Present
George Washington University, School of Engineering and Applied Sciences — Washington, DC, USA
Advisor: Dr. Peng Wei — Research: *Multi-Agent Reinforcement Learning, AI, Flight Control, Optimization* — *GPA: 3.9/4.0*

M.S. in Control Sciences and Engineering — September 2021 – May 2024
Tsinghua University, Department of Automation, — Beijing, China
Advisor: Prof. Li Qing — Research: *Reinforcement Learning, and Flight Dynamics and Control* — *GPA: 3.81/4.0*

Machine Learning Summer School — June 2022 – August 2022
University of Oxford — Oxford, United Kingdom

B. Eng. in Aircraft Design — September 2018 – June 2021
Beijing University of Aeronautics and Astronautics, Department of Aeronautics, — Beijing, China
Advisor: Dr. Jidong Wang — Research: *Aircraft Design, Flight Dynamics and Control, Aerodynamics* — *GPA: 3.78/4.0*

Freshman Year in Aeronautics and Astronautics — September 2017 - June 2018
National Cheng Kung University — Tainan, Taiwan
GPA: 4.05/4.3

PUBLICATIONS

Published

Zongo, A.B., Qing, L. (2025). — Published, March 2025
Towards Intelligent Fault Tolerant Attitude Flight Control Of A Fixed-Wing Aircraft,
In: Yan, L., Duan, H., Deng, Y. (eds) Advances in Guidance, Navigation and Control. ICGNC 2024. Lecture Notes in Electrical Engineering, vol 1353. Springer, Singapore. [PDF] [Code]

Under Review

Zongo, A., Wei, P. — Abstract accepted, January 2026
eVTOL Aircraft Energy Consumption Estimation with Conflict Resolution in High-Density Airspaces. Abstract accepted at the Integrated Communications Navigation, and Surveillance (ICNS) Conference 2026.

Zongo, A., Wei, P. — Abstract submitted, January 2026
Robust Multi-Agent Reinforcement Learning for Small UAS Separation Assurance under GNSS Degradation and Spoofing. Abstract submitted to the Digital Avionics Systems conference (DASC) 2026.

In Preparation

Sharifi, I., **Zongo, A.**, Wei, P. Under preparation, December 2025 – February 2026
Fine-Tuning Large Language Models for Multi-Agent Tactical Deconfliction of Small Unmanned Aerial Systems. Target: Air Transportation Research and Development Symposium (ATRD) 2026.

TECHNICAL ESSAYS

Zongo, A. (2025). Published, December 2025
Aircraft Traffic Control: Managing Order in a Crowded Sky. Scholarly blog post, archived on Zenodo, and accessible Online.

RESEARCH EXPERIENCE

Graduate Research Assistant September 2024 – Present
Intelligent Aerospace Systems Lab (IASL), George Washington University
- Developing pre-flight eVTOL energy consumption estimation with conflict resolution for high-density airspaces (NASA-funded through University Leadership Initiatives)
- Designing robust multi-agent reinforcement learning framework for aircraft separation assurance under GNSS spoofing and degradation
- Organized the Safe and Responsible AI Workshop (September 2024) with participants from FAA, HASS COE, Johns Hopkins APL, MIT Lincoln Labs, TRAILS, NIST AI, and RAIUK

Research Assistant September 2021 – May 2024
Navigation and Control Lab, Tsinghua University
- Developed intelligent fault-tolerant attitude flight control for fixed-wing aircraft using reinforcement learning, resulting in ICGNC 2024 publication

Robotics Software Engineer Intern June 2022 – November 2022
Popular Robotics, Beijing, China
- Developed biped robot simulation in Gazebo using ROS/ROS2
- Designed curriculum module on gait motion fundamentals, simulation, and control

TEACHING EXPERIENCE

Graduate Teaching Assistant January 2025 – May 2025
George Washington University
- Course: Linear Systems Dynamics (MAE 3134), Spring 2025
- Conducted recitations, held office hours, graded assignments and examinations

PROFESSIONAL SERVICE

Journal Reviews
- Journal of Aerospace Information Systems (JAIS) – 3 papers (2025)
- Journal of Guidance, Control, and Dynamics – 1 paper (2026)
- Journal of Engineering Applications of Artificial Intelligence (EAAI) – 1 paper (2026)

Conference Reviews
- International Conference on Guidance, Navigation, and Control (ICGNC) – 3 papers (2024)

TECHNICAL SKILLS

Programming	Python, Julia, MATLAB/Simulink, C/C++, ROS/ROS2, Ada
ML/AI Libraries	PyTorch, JAX, NumPy, Scikit-Learn, OpenCV
CAD/Simulation	BlueSky ATM, OpenVSP, SolidWorks, CATIA, ANSYS Fluent
Languages	French (native), English (C2), Chinese (B1)

AWARDS AND FELLOWSHIPS

NASA University Leadership Initiatives Fellowship 2024 – Present
George Washington University Graduate Research Assistantship

Chinese Government Scholarship 2021 – 2024
Tsinghua University, Full funding for Master's program

Chinese Government Scholarship 2018 – 2021
Beijing University of Aeronautics and Astronautics
Outstanding Academic Achievement Award (2019, 2020)

Taiwan Ministry of Foreign Affairs Scholarship 2016 – 2018
National Cheng Kung University & Fu Jen Catholic University

SELECTED PROJECTS

George Washington University September 2024 – May 2025
· Visual odometry algorithm implementation on self-recorded datasets
· System identification and nonlinear control for SpaceX Grasshopper dynamics
· Graph algorithm analysis: Jack Edmonds' blossom algorithm implementation

Beijing University of Aeronautics and Astronautics September 2020 – May 2021
· Flight simulator modeling with MATLAB/Simulink using RCAM model [Code]
· Conceptual design of lightweight sport aircraft and preliminary helicopter design

LEADERSHIP AND SERVICE

Secretary General May 2022 – May 2024
Tsinghua University African Student Association (THUASA)
· Led cultural activities planning and community engagement initiatives
· Coordinated leadership development programs for international students

R&D Engineer September 2022 – May 2023
Tsinghua AI International Student Association (TAISA)
· Developed AI solutions for societal challenges as part of graduate-level club

SELECTED COURSEWORK

Machine Learning (A)	Deep Reinforcement Learning (A)	Computational Optimization (A)
Aerodynamics (A)	Electro-Mechanical Control Systems (A)	Advanced Engineering Mathematics (A)
Aircraft Design (A)	Robotics and Computer Vision (A)	Flight Dynamics, Simulation and Control (A)
Algorithm Design (A)	Automatic Control (A)	Large Language Vision Models (A)

EXTRA-CURRICULAR

- Church Musician at *North Cathedral of Beijing* September 2023 – July 2024
- Campus Service Volunteer at *Tsinghua University* September 2021 – May 2024
- Piano player and performer at the *Global Village* and *Starry Night* events at Tsinghua University, Beijing, China May 2023
